

# Training course providers for ICT awarded (or approved) qualifications

*The list below indicates the providers of publicly available courses current or expected in 2015. (Other training courses are arranged in-house for staff by companies such as Cemex and RMC India.)*

## **Stage 1**

Concrete Society – one-day refresher sessions for those with some experience.

Irish Concrete Society – three half-day courses of lectures and a practical session, in Dublin and Cork.

TALENT – distance learning via CTCT expected later in 2016.

Thomas Telford Training – not specifically for Stage 1, but a proven preparation for exams at this level.

The Concrete Institute (TCI) – based in South Africa.

Go Academy – distance learning based in South Africa currently available (Stages 2 and 3 in preparation).

Xcalibur – privately arranged courses in Ethiopia and other African countries, with the option of ICT exams.

## **Stage 2**

TALENT – distance learning via CTCT.

The Concrete Institute – based in South Africa.

Go Academy – based in South Africa.

## **Stage 3**

The Concrete Institute – based in South Africa.

Go Academy – based in South Africa.

TALENT – distance learning via CTCT, under preparation and expected to be available from October 2015.

University of Derby – distance learning course for University Certificate in Concrete Technology, runs Sept – July. Recognised by ICT as qualification for Associate Member of ICT. A Concrete ‘pathway’ toward a foundation degree is also in course of preparation for September 2015.

## **Stage 4**

University of Leeds – PGDip/MSc course based on ACT syllabus and accredited by ICT, replacing the former MSc course at Queen’s University Belfast in September.

The Concrete Institute – lecture course based in South Africa, expected in 2016.

Cement Concrete & Aggregates Australia – lecture course based in Australia, dependent on demand.

University College London – lecture course in London for Chinese candidates who have registered with CCPA, due 2016.
